# HPB GENERAL INFORMATION

## Description

### High Pressure Bowl Kit

**Maximum working pressure up to 42 MPa (420 bar)**

**Flow rate up to 300 l/min**

HPB is a range of high pressure bowl kits for protection of sensitive components in high pressure hydraulic systems in the mobile machines. They are directly integrated in the control blocks.

#### Available features:

- Fine filtration rating, to get a good cleanliness level into the system
- Low collapse filter element "N", for use with blocks provided with bypass valve
- High collapse filter element with external support "S", for use with blocks not provided with the bypass valve
